

A man in a dark suit and tie is leaning over, holding a blue flashlight. The beam of light is directed at a hole in the floor. A large pile of US dollar bills is inside the hole, and several bills are floating in the air around it. The background is a textured, blue-grey wall.

Found: Money Looking for Rightful Owner

Millions of overpaid dollars found in claims funded in error by your healthcare plan.

To Claim: Contact Healthcare Horizons to perform an annual healthcare claims audit and recover your lost money.

(Money not claimed within two years will be forfeited.)

Self-insured employers lose between 1-3% annually in overpaid healthcare claims.

Small errors can add up to big money lost.

An annual healthcare claims audit, especially one that employs our 100% Difference, will ensure that overpaid healthcare claims made by your payer have the potential for recovery, adding directly to your bottom line.

How much are you willing to lose?
