Comprehensive Claims Audits
for Self-Insured Employers

It is what we do. It is all we do.

Our Standards are **NOT** Standard

- **High yield for little time.** Minimal time is required by the client to set up the audit, increasing ROI.
- **Streamlined process.** We work behind the scenes so you can focus on your business operations and productivity.
- **Hands-on involvement** from Healthcare Horizons leadership for every audit.
- **Satisfies fiduciary responsibility.** Performing an annual healthcare claims audit improves your bottom line and avoids the two-year 'no recovery' trap.
- **Our emphasis is on you,** more ROI and future savings for your business.

OUR PROMISE:
People first!

YOU ARE IN CHARGE

You determine which claims to recover.
You decide how hands-on you want to be.

CLEAR COMMUNICATION

We keep you informed and up-to-date
on the process.

We take special care to alert you so recovery
decisions are made with an understanding
of member impact.

TPA RELATIONSHIPS RESPECTED

Healthcare Horizons works with your TPA
to identify errors, monitor collections, and
help negotiate direct credits or settlements.

When Close Enough ... Isn't
