

# Are You Missing a Fundamental Cost-Containment Opportunity?

*“Random sampling misses over 90 percent of the errors caught by the methodology based on the 100-percent-of-claims analysis.”*

– Source: Professor Ronald Klimberg, Decision and System Sciences Department of the Haub School of Business, Saint Joseph’s University

Don't **short-change** your employees and your company.

\$\$\$ Are you auditing your medical claims? Don't allow **systemic errors** to cost you millions over time.

**EVERY CLAIMS DATA SET CONTAINS ERRORS.**

- People make mistakes.
- Even with the best intentions, **ERRORS HAPPEN.**
- Experience matters. Not all auditors are the same.

“Healthcare Horizons is the best onsite medical claims audit company in the U.S. because they have decades of direct industry expertise in assessing the performance of third-party administrators. They outperform big-name accounting firms due to a deep understanding of how the carrier/hospital contracts work. They have experience with items being included in healthcare documents that are not in the best interest of the employers or employees.”

– Lee Lewis, Chief Strategy Officer & GM Medical, Health Transformation Alliance

Healthcare Horizons helps you take control of one of your company’s largest expenses and puts **YOUR** dollars back where they belong. **We Make it Right.**

HEALTHCARE HORIZONS	OTHER FIRMS
<b>28+</b> years of healthcare claims auditing for some of the world’s largest employers.	May or may not specialize in healthcare claims audits. Accounting firms do not.
<b>\$10B</b> in claims audited annually for all national payors; experience with every possible claims error; employs on-site expert eyes to uncover more.	Rely solely on software queries to find general errors.* Experience with some, but not all, claims data set errors.
<b>\$\$\$MM</b> Millions of dollars in findings and recoveries for clients each year. It’s our <b>100% Difference.</b>	Limited findings = Reduced recoveries.
<b>100%</b> The HH executive staff is involved in every audit 100% of the time, leading to more recoveries.	Audit team likely led by junior audit staff.

\* If all errors could be uncovered with computer programs, then there would be no errors in the first place.

Since 1999, Healthcare Horizons has been recovering more dollars for self-insured employers’ bottom lines with uncompromising accuracy, handling all relationships with care.

- 100% Difference audits. Every claim. Every possible dollar.
- High-dollar, out-of-network fee-negotiation services to eliminate balance-billing.
- More return on investment. More future savings.
